NOTE: ORIGINATOR SHALL ENTER A WORK ORDER NUMBER IF THIS JOB WILL BE AN ADDITION TO PLANT OR BETTERMENT OF \$100.00 OR MORE OR AN EXPENSE OF \$1,000.00 OR MORE.

DATE _____

11/16/87

TO:
NAME J. Fletcher / R. Stotler / B. Schorer

ORG UNIT	
----------	--

CHARGE TO:	ORG UNIT # 653	P. E. 1295	B. I. 11 & 21	WORK ORDER OR ACCOUNT # 70482-11
-------------------	-------------------	---------------	------------------	-------------------------------------

PLEASE DO THE FOLLOWING: As per the discussion at the plant on 11/13/87 between B. Schorer,
E. Lamers, & H. Tuffs.

1. Clean up the Pump House which is attached to the large concrete fuel tank east of
the plant.

2. Remove the debris outside the plant such as barrels, buckets, lumber, etc...

3. Tear down the small metal shed which is south of the plant.

4. Pump the remaining fuel oil (estimated between 40 and 300 gallons) from the tank next to metal shed.

5. Deliver the Oil Containment Boom to South Service Center Salvage for surplus sale.

cc: Shirley Axelrod
